

John Phillips and the team at MCR Productions truly brought our client event to life. From design to execution, John was involved in every step and offered ideas that made an unforgettable experience. When planning an event, you want to trust your vendors and we felt we were in very good hands. We received so many compliments on the lighting, crystal curtain, LED furniture, everything that created the overall ambiance. If you want to make an impression, I would highly recommend MCR Productions for your event.
